

Detox Jeopardy: How to Play Guide

Welcome to Detox Jeopardy! This is a fun, two-team game to test your knowledge. Here's how to play.

1. Getting Started: Team Setup

Before you begin, you can customize your teams:

- **Team Names:** Click on "Team 1" or "Team 2" in the white scoreboards to type in your team's name.
- **Team Colors:** Click the small color-picker square next to the team name to choose a color. This color will highlight the scoreboard when it's that team's turn.

2. How to Play: The Game Flow

Follow these steps to play the game:

1. **Choose a Team:** The game host clicks on a team's scoreboard to make them the "active" team (their scoreboard will light up).
2. **Pick a Question:** The active team chooses a category and a dollar amount (e.g., "Coping Skills for \$200"). Click that blue square.
3. **Answer the Question:** A pop-up will appear with the question and a **37-second timer**.
 - The team must answer in the form of a question (e.g., "What is journaling?").
 - The timer will tick down. You can click the Play/Pause button next to the timer to stop or restart it if needed.
4. **Score the Answer:** Once the team answers (or time runs out), the host clicks one of two buttons to score the attempt.
5. **Move On:** After the question is fully resolved, click the "Next" button to close the pop-up.
6. **Change Turns:** The game host should now click the *other* team's scoreboard to make it their turn to pick a question.
7. **Win the Game:** Repeat until all squares are "ANSWERED". The team with the most points at the end wins!

3. The Points System: Scoring, Steals & Daily Doubles

Here is how points are awarded and lost during the game.

Standard Question Scoring

When a team answers a standard question:

- **"I Got It Right!":** The team is awarded the **full point value** of the question.
- **"I Got It Wrong":** The team loses **half the point value** of the question. This immediately opens up a "Steal" opportunity for the other team.

Note: A team's score **cannot** go below 0.

The Steal!

A steal is triggered when the first team answers incorrectly or runs out of time.

- The other team's scoreboard automatically becomes active.
- A new 5-second "steal" timer starts.
- The second team can now try to answer.
 - If they are **right** (click "I Got It Right!"), they are awarded **half the original point value**.
 - If they are **wrong** (click "I Got It Wrong"), **no points are lost**.
- The correct answer is then shown.

The Daily Double

One question on the board is secretly a Daily Double!

- **No Steals Allowed:** Only the team that picked this question can answer.
- **Wager:** The team must wager (or bet) an amount of points *before* seeing the question.
 - They can wager any amount from **\$5 up to their current score** (or **\$1000**, whichever is higher).
- **Scoring:**
 - If they get the answer **right**, they **win their wager**.
 - If they get the answer **wrong**, they **lose their wager**.

4. How to Play on a Big Screen (TV or Projector)

To let everyone see the game, you can show it on a big screen from a computer, phone, or tablet.

Method 1: HDMI Cable (Easiest & Most Reliable)

1. **You'll Need:** A laptop/computer with an HDMI port and an HDMI cable.
2. **Connect:** Plug one end of the HDMI cable into your laptop. Plug the other end into a free HDMI port on the TV or projector.
3. **Switch Input:** Use the TV or projector's remote to change the "Input" or "Source" (it might be HDMI 1, HDMI 2, etc.).
4. **Done!** Your computer screen is now mirrored on the TV.

Method 2: Casting (Wireless)

This is a good wireless option if you have a Smart TV or a device like a Chromecast, Roku, or Apple TV. Your device and the TV must be on the same Wi-Fi network.

From a Computer (Chrome Browser):

1. Open the game in your Chrome browser.
2. Click the three-dot menu (⋮) in the top-right corner.
3. Choose "Save and share" and then "Cast...".
4. A list of your TVs or casting devices will appear. Click the one you want to use.

From a Phone or Tablet (Screen Mirroring):

- **On an iPhone/iPad:** Swipe down from the top-right corner to open the Control Center. Tap the "Screen Mirroring" icon (two rectangles) and select your Apple TV or compatible Smart TV.
- **On an Android Phone:** Swipe down from the top of the screen. Look for an icon named "Cast," "Smart View," or "Screen Mirroring." Tap it and select your TV or Chromecast.
